Permanent
Workshop Marker

Quick Change
Hobby Knife

Project Instructions

Step 1

Choose rocks that complement the size of the potted plant they will be going into. Paint rocks and allow them to dry.

Step 2

Cutout words for the rocks using the Quick Change Hobby Knife. Attach the cut out words to pieces of tracing paper. Trace the words for each plant onto the rocks using a pencil.

Step 3

Insert the Ball Engraving Burr into the 18V ONE+ Rotary Tool Station. Begin engraving along the traced letters, going over spots until the letters are clearly outlined. Brush off the rocks to remove any debris. Place the rocks into the pots with the plants.

Project is complete!
