TOOLS USED

18V ONE+™ HOT GLUE GUN

MATERIALS USED

MAGNETS

TILE

PROJECT STEPS

STEP: 1

STEP 1: Begin by removing tile piece from mesh netting.

STEP: 2

STEP 2: Using the Hot Glue Gun, put a pea-sized amount of glue in the center of the back of the tile (for small tile) or 2 pea-sized amounts of glue on the back of the tile (for slightly larger or rectangular tile).

STEP: 3

STEP 3: Carefully place your magnet or magnets onto the glue and apply a small amount of pressure for 15-30 seconds.

STEP: 4

Step 4: Wait a few minutes for the glue to dry before placing on your refrigerator.

STEP: 5

Step 5: Enjoy your newly decorated fridge!
