

# Welcome Sign

# PROJECT PLANS

**Skill Level:** Beginner

## Materials

Item	Qty
Circular Wooden Board	1
Paint	1
Bow	1
Decorative Fake Plants	1
Painting Sponge	1
Jute Rope	1
Engraving Bit	1
Hot Glue Sticks	1-2
"Welcome" Stencil	1

## Toolbox

18V ONE+ Rotary Tool Station

16 PC. Carving and Engraving Kit

18V ONE+ Dual Temperature Glue Gun

24 PC. Full Size Glue Sticks

Black Fine Point Permanent Workshop Marker

## Project Instructions

### Step 1

Draw two horizontal lines on the top and bottom of the wooden board to create an outline of the area that will be painted. Place tape along these lines to achieve straight lines when painting.

### Step 2

Use the paint sponge to paint inside the tape lines from the previous step. Coat with paint until opaque and set aside to dry.

### Step 3

Once the paint is dry, place "Welcome" piece onto the wood and trace with a marker or pencil.

### Step 4

Insert Ball Engraving Burr into the 18V ONE+ Rotary Tool Station. Turn on tool tracing out all of the letters.

## Project Instructions

---

### Step 5

Switch on the 18V ONE+ Dual Temperature Glue Gun, waiting till the light turns green to use it. Cut the rope to 24 inches.

---

### Step 6

Turn over the board and mark even spots where the rope will be placed. Apply a line of glue and press rope into the glue to hold in place. Repeat with the other side.

---

### Step 7

Turn board back over to painted side. Apply dots of glue to wood and place decorative pieces on the glue on each side.

---

### Step 8

Apply glue onto the back of the bow and press firmly onto the middle of the board at the top.
